"The files opened or maintained from time to time by the University for or with respect to members of the academic staff of the University, are the property of the University, created for University purposes, and subject to the following may be dealt with accordingly:

(1) The only written or documentary information which may be presented to or considered by any person, committee or office at the University with respect to the salary increment, promotion, tenure, periodic review, transfer, dismissal, disciplinary proceeding or similar matter of a career nature of an academic staff member of the University (which for the purposes hereof shall include professional librarians and administrative and professional officers) shall be such written or documentary information bearing the signature of the maker thereof or of the person proffering the same.

(2) A file to be known as the Career Decision File and containing the information referred to in paragraph (1) hereof shall be opened and maintained for each staff member.

(3) A staff member or any person authorized by him in writing may examine and secure copies of information contained in any file maintained by the University with respect to

that staff member and may in the case of a Career Decision File add information to this file or with the consent of the University cause information in the file to be transferred from the file; all such information in a Career Decision File, additions and transfers to be recorded thereon; PROVIDED that except in the case of a Career Decision File, the information examined or copied must be relevant to a

pending career decision with respect to that staff member and FURTHER PROVIDED that where the information in question was given on condition that it be maintained in confidence then, except in the case of a Career Decision File or a case where the confidence is released, such information shall not be available for such examination or copying.

(5) Except where required by law to do so, and except in the case of the publication of such information as the name, academic rank or title, academic, civil or military degrees and honors, publications, positions held, courses taught, fields of research and similar matters of a biographical nature; the University shall not divulge the contents of a staff member's file or files to any third party without the consent in writing of the particular staff member first had and obtained. (6) Where a file contains information relevant to more than one staff member, the University shall on request of the staff member or his representative for examination of the file, show the staff member or his representative only those items which relate to that staff member or in lieu thereof may prepare copies of the information with matters not relevant to the staff member or his representative blanked out.
